Going EV was always a bit daft

NUMBER 141 / 2025

Ten years. That's how long we've been going, but it isn't about us. It's all about how difficult it is now to buy, own and run a car. Over the last decade government interference has become utterly overwhelming. Low Emission Zones, Taxation, Vehicle mandates all designed to get you on a bus basically. Sorry not to be more positive. We do seem to be the only website/magazine actually sticking up for motorists. Anyway, to celebrate we are sticking Bruce on the cover. Click on the pics. See you next time...

Free Car Mag continues the fight for motoring freedom, sticking up for drivers and those who want the freedom to choose what to drive and when to drive it. There will be stories that can't be read anywhere else and that should be reason enough to come back for more.
