At least Red Ed Millivolts is Happy

Free^{ed}torial

Red Ed Milliband is completely out of his tiny mind. For me it really is personal now. This isn't a NIMBY situation exactly. I won't have a solar panel at the bottom of my garden, but friends and neighbours will. You might think this is not about cars, but ultimately it is. This is the direct result of the Net Zero Insanity which means that all of the solar doesn't hang about it Norfolk it goes down the wires to North London and Ed's BYD. This is the future and it's absolutely bloody awful. See you next time...

FCM 144

Free Car Mag continues the fight for motoring freedom, sticking up for drivers and those who want the freedom to choose what to drive and when to drive it. There will be stories that can't be read anywhere else and that should be reason enough to come back for more.
