SELF DRIVING CARS/TUBES WILL TAKE YOU SHOPPING.

Keeping Bugs out of Britain's Homes

Explaining the EV Grant to Britain

Free-torial

Self driving cars are a thing. They sort of have been for a very long time. If you don't want to drive that's fine, you hire a taxi, a chauffeur, get on a bus, or train, there are plenty of options. Taking the actual driver out of the equation, or the driver's seat, has been an important goal. Saves big business money, makes governments think they are doing big safety improvements for the greater good. Meanwhile you will be stuck at home with a Tube Train in the garage. See you next time...

FCM 150

Free Car Mag continues the fight for motoring freedom, sticking up for drivers and those who want the freedom to choose what to drive and when to drive it. There will be stories that can't be read anywhere else and that should be reason enough to come back for more. Also it's #150. All Hail Comrade Keef Stalin
